The EXETER GREEN CIRCLE is a twelve-mile walk that provides a great walking experience within the boundaries of Exeter – from green countryside valley parks to the pavements of quiet leafy suburbs.

This part of the GREEN CIRCLE explores the green areas and viewpoints in Redhills and the western fringes of Exeter. There are one or two steep climbs between the River Exe flood plain, with its allotments and playing fields, and these leafy hills. The Millers Crossing bridge over the Exe is one of the highlights of the walk, especially when the river is high.
