WHIPTON (SOUTH)

Description: A broadly level area first developed early in the 20th Century. The northern boundary is provided by the Exeter to Exmouth railway line. To the south there are substantial areas in other use. Other boundaries with the Heavitree (east) and Wonford Areas are less clearly defined.

NB Boundaries of neighbourhoods are shown by a continuous black line where they adjoin open country, other uses or are separated from others by barriers to movement such as railway lines and busy roads.
